Non-Compatible Policy

Cats that meet any of this criterion are deemed Non-Compatible and will not be allowed to stay at Kitty Corner. If any of these criteria shall be met at any point during the reservation, immediate pick-up must be arranged. An additional charge of \$30 per night will be issued for each day the cat is not picked up. The criterion for Non-Compatability is as follows:

1. Cats that spray
2. Cats that cannot be safely handled (i.e. aggressive)
3. Cats with communicable disease, uncontrolled illness or fleas/ticks/mites
4. Cats that are not spayed/neutered (if 4 months or older)
5. Cats under 12 weeks of age
6. Cats exhibiting extreme fear/stress (more than what is typical)

All cats at Kitty Corner will be examined upon admittance. If a cat is deemed Non-Compatible at any point during their stay, the reservation will be cancelled.

Cats who violate this policy to the extent that they are a threat to staff (i.e. aggression), property (i.e. spraying), other cats (i.e. communicable disease) or themselves (i.e. not eating/drinking/using litter box) will need to be promptly removed.

***Note:** It is normal for cats to exhibit stress the first few days of being in a new environment. They may not eat, drink or use the litter box. The Non-Compatible Policy applies only to cats who cannot adjust within a reasonable length of time and to the point of harming themselves or others.*
